

## CERTIFIED & COMMITTED TO EXCELLENCE

Transform Power Systems (TPS) is a certified provider under the Commonwealth of Massachusetts OSD PRF74 for Energy, Climate Action, and Facility Advisory Services. We are a Women- and Minority-Owned Business Enterprise (WBE & MBE) certified by both the City of Boston and the Massachusetts Supplier Diversity Office (SDO), and a Disadvantaged Business Enterprise (DBE) through MassUCP.

TPS is also a Massachusetts Department of Labor-Approved Talent Placement Agency, with Professional Engineer (PE) licenses in 16 states.

# FACILITY & INSTITUTIONAL SUPPORT

SIMPLIFYING ENERGY PROJECTS  
FOR FACILITIES & INSTITUTIONS

## Strategic Support for Energy Transition

### Decarbonization Strategy

Emissions baseline & energy use analysis  
Scenario planning and tech selection  
Phased implementation with risk alignment

---

### Feasibility Studies & Electrical Engineering Design

Site load analysis & usage profiling  
EVSE and renewable energy suitability  
Energy modeling & cost of ownership  
Phased investment planning  
Full system design & permitting

---

### Procurement & Vendor Support

Scope definition & bid package prep  
Vendor vetting and proposal review  
Support through negotiations and kickoff

## Tailored to Your Evolving Energy Needs

### Owner's Engineering & Technical Oversight

Independent review of vendor deliverables  
Commissioning inspections & punchlists  
Resolution tracking  
Owner-first technical analysis

---

### Facility Staff Training

Hands-on instruction in solar, BESS, energy systems  
Operational readiness & safety  
Ongoing resource and maintenance tools

---

### Funding & Incentive Navigation

Mapping of incentives across jurisdictions  
Support with documentation & submission  
Strategic fit with your capital and climate goals
